

**In the Specification**

Please amend the following paragraphs as follows:

[0013] **Figure 3** shows another setting in which a set of aligned optical parts (only one being shown) are being bonded to a flat substrate; and

[0014] **Figure 4** shows an exemplary setting in which two parallel optical parts are being bonded to a substrate with 4 wedges; and

Figure 5 illustrates a configuration or device in which the present invention may be practiced.
